

PMQ Qualification in Project Management

Who is this course for?

- Those already working as a project manager or in a project team role and wish to develop their project management expertise to professional level.

Benefits of this course

- Provides the foundation knowledge necessary to successfully manage projects
- Provides an internationally recognised qualification.
- It is led by highly experienced tutors.
- Offers flexibility around your job and business.
- Structured in a way that ensures high pass rates.
- Includes an additional one day exam preparation workshop.
- Comprehensive course notes and e-learning guidance is included.

Examination

- The examination is three hours and consists of short structured essay style questions and must answer 10 out of 16 questions. To pass the exam, you must achieve a mark of 55% and over.

Unique course structure

- This course is offered on a 'blended learning basis'. This means that it will combine periods of home study with attendance on practical workshops and finishing with the APMP exam.
- Typically the course will consist of pre-course preparation work, followed by three 2-day workshops with home study between each one. The exam is taken at the end of the last workshop.

- This provides you with sufficient time to absorb course material and put it into practice at work. It is particularly suitable for those with busy workloads.

Other options

- This course can also be taken as a 4-day module followed by a 2-day module or as a distance learning course with attendance at either modules 1 and 3 or 3 only.
- We can also come to you and incorporate your organisation's values, project management processes, tools and techniques.
- Tutor support is still provided in the above options either by phone or online.
